General:

1. Please change all file names to lowercase, e.g. Index.php to index.php.
2. Please remove all italic text formatting.

Entry screen view:

3. Wording: "Upcoming IP's" instead of "Upcomming IP's".
4. Wording: "IP's you follow" instead of " IP's You Follow".
5. IP box:
  - It shouldn't say "User Story" statically but show the content of the user story for that IP. Please show only the feature ("I want to…") and make sure only one line shows (also: this applies for all 4 values in the IP box!), e.g. css ellipsis: https://css-tricks.com/snippets/css/truncate-string-with-ellipsis/
  - Please decrease padding in user stories to 8px.

Create new improvement proposal view 1:

6. Wording: "Create new IP" instead of "Create New IP".
7. Wording: "So that I..." instead of "So That I...".
8. Wording: "Cancel" instead of "Entery Page".
9. IP box: similar problem as in entry screen view (please check change request number 5).
10. Create suggestion functionality:
  - On key up (or similar event that makes it real time) it has to check if a similar IP already exists based on letters of the name.
  - All similar IP's must be shown in the right box (and only these).
  - It should be possible to open the IP's in the detailed view.
  - Something like this: https://www.w3schools.com/howto/tryit.asp?filename=tryhow_js_filter_table.

Create new improvement proposal view 2:

11. Wording: "Cancel" instead of "Entery Page".
12. Wording: "Priority (1-5)" instead of "priority (1-5)".
13. Wording in priority dropdown:

> "
> 1 - High priority and business critical
> 2
> 3
> 4
> 5 - Nice to have
> "

instead of
"
1 - High priority and business critical
2 - Unknown
3 - Unknown
4 - Unknown
5 - Nice to Have"
"

14. Wording: "of compliancy" instead of "ofcompliancy".

IP Details view:

15. Wording: "Priority" instead of "Periority".
16. Wording: "Back to dashboard" instead of "Dashboard".
17. If the fast track checkbox hasn't been checked beforehand, it should say "Fast Track: no" instead of just "Fast Track: ".
18. Please delete the success message "Record Inserted", when an IP has been created.

Others:

19. In the submit a comment view, please delete "Website(optional)".
